STEEL TIP DART RANGE

CRAFTED TO LAST  
BUILT TO WIN

Our darts are designed, crafted and sampled in house by hand, refined by cutting edge CAD software, then tested by uncompromising players for accuracy.

Each dart runs a gauntlet to bear the Shot Darts name. From machining, coating to machine pointing, laser etching, inspection and packing – every 90% tungsten barrel is precision crafted and match weighted to within +/- .05gm.

We stand behind every tungsten dart with a lifetime barrel guarantee. Shot Darts. Crafted to last, built to win.

# RONIN

## FORTUNE FAVOURS THE BRAVE

### YU: THE HEROIC ONE

Ronin is a range of darts for the skilful player. A Ronin's strength begins with courage. With the Ronin Yu dart comes the bravery to play well, play hard, and play with honour. Ronin Yu is finely crafted in 95% tungsten, coated with sleek black titanium and endures 9 stages in manufacturing to prepare for greatness. Standout graphics in regal colours echo an ancient Japanese warrior dynasty, that of a warrior with no master.

A WARRIOR BENDS SO THEY  
DO NOT BREAK

Ronin lived by a code of discipline known as the Bushido, which outlines eight virtues. The code of Ronin Rei is one of respect among all darts players. Competition is balanced with respect given and gained. One knows their opponent through their actions. Ronin Rei is a swift and stealthy 90% Tungsten premium barrel available in a flag-bearing red colour to command respect.

# TRIBAL WEAPON

SWIFT AND DEADLY

Prepare for battle with the Tribal Weapon. Inspired by the ancient arts of Pacific and Asian combat, this dart is anything but old fashioned. The finest Tungsten goes through hell - our intensive 7-stage process - to achieve its precision finish. It's armoured with an ultra-durable, 1 micron copper titanium nitride coating, re-machined for strength and beauty. If you're looking for a competitive edge, the Tribal Weapon is your weapon of choice.

# WARRIOR

## ARM YOUR ARM

Capturing the indigenous spirit of Pacific Warriors, the Warrior features a flowing tattoo design of the New Zealand fern, for abundance and good health (and great playing). With its bone white shaft and cinder grip™ (superfine grip technology) on the points and barrel, the Warrior represents a taiaha – a Maori spear used for close combat. Choose the Warrior, and unleash the warrior within this weekend.

# BIRDS OF PREY - FALCON

## SHARPEN YOUR SENSES

Inspired by New Zealand's native raptors, Birds of Prey bring the same deadly accuracy, stealth and speed to the game as our great winged hunters. Featuring Hi-tech particle coating technology for rich, highly reflective colours and unbeatable wearability, the Falcon is adorned with the deep, glossy blue-black of wings in flight – to take down your prey at high speeds.

# BIRDS OF PREY - HARRIER

## RISE ABOVE THE REST

Fix your eagle eyes on victory. The Harrier is a deep, natural brown for stealth and the element of surprise. Barrels and flights in this range take their cue from the evolved aerodynamics of swift, silent wings. The Birds of Prey range offers precision performance and good looks, as you poise to move in for the kill.

# Pacific GEM

## A FLASH OF BRILLIANCE

Going for a flash of brilliance in your game? Go for the Pacific Gem. With a flight that takes its design cues from traditional Pacific tapa cloth, this dart is both ally and accessory. The inlaid turquoise coating is like treasure from tropical seas, this dart should be worn with pride, like a diamond.

# TOTEM

CARVE YOUR FLIGHT PATH

You don't need luck when you're carrying a Totem. Like tribal tattoos, the flights in this range call on the power and imagery of people, animals and legends. For solid forward thrust and pinpoint accuracy, with a seamless look and feel – the dart barrel and paired shaft are both crafted with Shot Darts pyramid grip™ technology. If you're looking to take your game to a higher level, Totem is the dart to get the job done.
