DUFFERIN CUES

A rich history based on quality craftsmanship and a commitment to upholding those values

The Same Philosophy for over 45 Years!

We concentrate on crafting the highest quality billiard cues. Combining state of the art manufacturing techniques with high-grade materials Dufferin Billiards has perfected the balance between strength and performance.

All Dufferin cues feature the highest grade select Canadian hard rock maple or select North American Ash. The woods are carefully vacuum dried and aged in special moisture control chambers to cure them to exacting specifications. The wood “blanks” are hand selected and then turned in a series of sessions over a long period to allow the wood to acclimatize and reach the proper moisture content.

Dufferin exclusive Ultra Violet lacquer finish is the ultimate armor, giving our cues a long lasting, beautiful finish that will endure abuse, stay crystal clear and last a lifetime.

All components are selected for maximum playability. We use fibre, brass or XTC ferrules, layered tips and cues can be customized with our interchangeable weight balancing system. The result is a wide range of precision cues that will improve your game and that can accommodate any caliber of player.

Unmatched In Quality & Unrivalled In Play!

All Dufferin cues feature the highest grade select Canadian hard rock maple or select North American Ash.

SNOOKER TECHNOLOGY SERIES:

TECHNOLOGY ENHANCED SNOOKER CUES

Dufferin takes the Snooker cue to a new level! Our New technology enhanced snooker series incorporates high grade tips like Kamui and Everest layered tips for superior ball control and 8-piece laminated shaft technology for deflection reduction.

Not only do these cues employ revolutionary craftsmanship but they are also beautifully designed with exotic wood inlays in Rosewood or Ebony butts. Contemporary matching Stainless Steel Ferrule, Joint and Butt Plates complete the stunning look. Experience cutting edge innovation in snooker cue design.

CUE RACKS AND SCOREBOARDS

Our collection of wooden racks are crafted from solid American Red Oak, Birch or Maple and finished with attention to every detail. Featuring contemporary designs and hand rubbed finishes these accessories are easy to assemble.

JOINT PROTECTORS

Protect your cue joint with Joint Protectors for most Dufferin Cues. Our joint protectors are made from Cerocite, a high-impact plastic that will protect the joint from impact and keep dirt out of the threads.

POOL BALLS

The Dufferin Premium Pool Ball Set is the perfect choice for players looking for durable, high quality balls at an affordable price. Premium balls measure the standard 2-1/4" in diameter and are regulation weight. They have a lifetime warranty against cracking or chipping that effects the roll of the ball and feature a special coating to resist fading. Not guaranteed for commercial use.

TRIANGLES

Solid wood Triangles and 9-Ball Racks in five designer finishes.

WEIGHT BALANCING KIT

Dufferin Cues are equipped with an Adjustable Weight Balancing System. Balance your Dufferin Cue to suit your stroke with this kit containing 5 weight bolts and tool.

COVERS

A good cover is important to the life of a billiard table. Our covers are constructed with heavy duty yet light weight 19 oz. per linear foot material. Seams are double stitched for durability and are tailored with a 5" overhang. We only use a polyester/nylon backing so that there is no transfer of messy fuzz on to the table. 7', 8' and 9' covers come in a display box.

Covers
