## March 2025

Shot

We're proud to welcome Michael into our Shot global family. Co-creating this exclusive range for the World Champion took an intensive collab between Michael and Shot's dartsians. The result is technical perfection and the darts gear Michael Smith trusts to give him the edge. Crafted in a range of weights, balances, materials, and price points, players who aspire to be the best can pick up and play with precision darts gear created in collaboration with the 2023 World Champion.

Future Knights—defenders of justice in a dystopian world where medieval honour meets cutting-edge technology. These legends blend the timeless code of chivalry with futuristic weaponry to prove that heroes don't fade—they evolve. Picture knights battling tech-driven tyrants, engaging in epic laser-lance jousts. With four barrel designs in popular shapes and weights, the future of darts has never looked so epic!

The Shot AI range has arrived from the future for the match hackers, the game-day predators, and the tournament assassins. This range is the arena where cutting-edge intelligent design collides with humanity in constant flux. Rise against the robots and run the game using your own blend of skills, intel, and darts gear – developed by Shot Dartsisans precisely for the human machine.

# ROMAN EMPIRE

The Roman Empire range is Shot's tribute to the great minds that gave the ancient Romans their decisive military victories. All four Roman Empire barrels in the range feature the meticulous new signature Testudo grip, named for the 'tortoise' shield-wall formation, a defensive tactic used by legionaries to protect themselves against enemy archers.

The Celts – an Iron Age culture that swept Europe and the British Isles, their proud tribal alliances connecting their people across vast expanses of distance and time. History’s legendary underdogs – the Celts clashed with the might and military machine of Rome. The heroic, highly decorated Celt dart range is impressively ornamented with colour and texture, representing the many Celtic tribes rich in culture, steeped in myth, and forged in battle.

SOFT TIP 18GM

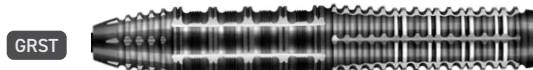

Shot Darts are known for excellent grip and players always ask us for more, this new range pushes our grip profiles further giving customers an extreme grip feel - that will last and last. These barrels have been designed with the players, we’ve taken their feedback into the barrel design weights and colours and came up with Gnarly darts that are engineered for maximum traction—Shot’s grippiest darts yet!

# BIRDS OF PREY

Inspired by New Zealand's native raptors, Birds of Prey bring the same deadly accuracy, stealth, and speed to the game as our great winged hunters. With assured universal grip profiles, the barrels and flights in this range take their cue from the evolved aerodynamics of swift, silent wings, with assured universal grip profiles.

## AIRFOIL

Airfoil's optimal 90-degree flight angle ensures a consistent and reliable flight path. Constructed from advanced composite polymer, with a built-in shaft and flight protector. Reinforced veins strengthen the flight wings, increasing rigidity by 40% while adding only 3% more material. Compatible with all dart stems.

## FLIGHT DECK

Take the controls with an integrated dart flight and shaft system - with a difference. Constructed from an advanced composite polymer, Flight Deck is designed for optimal flexure and weight placement along the shaft and flight - for tighter dart groupings on the dartboard and better overall dart balance. For added strength, Shot's design team added a Carbon rod in its centre to keep it taut and longer lasting.
