FIVE REASONS TO PARTNER WITH SHOT DARTS

1. Shot's premium tungsten darts are 100% designed, prototyped, and made in our New Zealand workshop by artisans. This end-to-end approach means total control over the quality, precision, speed to market, and on-point launch timing.
2. With over 400 product lines, Shot offers the complete solution to all dart and accessories needs, from value ranges to premium tungsten with ingenious grips. We ensure a healthy margin for distributor partners, and it's backed with RRP for pricing protection.
3. Shot's compact packaging with hang-sell options makes it an easy fit in all retail environments. Utilize our complimentary point-of-sale display, tester dart racks, and regular value-added gifts with purchase promo items.
4. An online trade portal makes it easy to order. Use the full range of high-quality digital assets, including product images, flat-file with specs, social media banners, and video. If you need customised website banners, we do that too.
5. We've been established for over 50 years, a lifetime of keeping promises. Shot works hard to earn your customer's play. Our lifetime replacement guarantee covers tungsten dart barrels for faults in materials and craftsmanship.

Contact your Shot Account Manager today to discuss how we can increase your dart business.

We're proud to welcome Michael into our Shot global family. Co-creating this exclusive range for the World Champion took an intensive collab between Michael and Shot's dartsians. The result is technical perfection and the darts gear Michael Smith trusts to give him the edge. Crafted in a range of weights, balances, materials, and price points, players who aspire to be the best can pick up and play with precision darts gear created in collaboration with the 2023 World Champion.

ROMAN EMPIRE

The Roman Empire range is Shot's tribute to the great minds that gave the ancient Romans their decisive military victories. All three Roman Empire barrels in the range feature the meticulous new signature Testudo grip, named for the 'tortoise' shield-wall formation, a defensive tactic used by legionaries to protect themselves against enemy archers.

The Celts – an Iron Age culture that swept Europe and the British Isles, their proud tribal alliances connecting their people across vast expanses of distance and time. History’s legendary underdogs – the Celts clashed with the might and military machine of Rome. The heroic, highly decorated Celt dart range is impressively ornamented with colour and texture, representing the many Celtic tribes rich in culture, steeped in myth, and forged in battle.

SHOT DARTS AMERICANA

Declare your independence with the Shot Darts Americana range. Embrace the possibilities of the open road, the starlit landscapes of Midwest prairies, cresting over the Rockies, and onward to the curving horizon of the Pacific Ocean – it's pure adventure in big sky country. Here's a darts range that gives you the freedom to play it your way. The Americana range is Shot's salute to the melting pot and infinite source of possibility that is the USA.

DEVON PETERSEN

THE AFRICAN WARRIOR

Devon Petersen has darts in his blood. From big dreams in a small garage in apartheid South Africa, to competing with his heroes on the world stage – Devon blazes a trail and bears the torch for his homeland. Shot's in-house design team collaborated closely with the African Warrior himself to create a spectacular darts range with ingenious Iklwa spear grip to keep him at the top of his game.

Between 700 and 1100 AD, Viking raiders from Scandinavia ruled the seas, fought like warriors, and made vanquished peoples shake in their boots and soil their leather breeches. The Vikings range by Shot Darts lets you relive their epic saga. All the precision milled compact barrels in the range feature the mighty interlocking Siege grip.

Wild Frontier recalls the legends and pays tribute to the skill and resilience of these gold mining, bear-trapping, hard-living pioneers. The Wild Frontier barrels feature the Shot Revolver grip at the push point. This positive grip profile allows the player to relax their finger but still maintain complete control of the dart.

FTST

STEEL TIP 23, 24, 26GM

Inspired by New Zealand's native raptors, Birds of Prey bring the same deadly accuracy, stealth, and speed to the game as our great winged hunters. With assured universal grip profiles, the barrels and flights in this range take their cue from the evolved aerodynamics of swift, silent wings, with assured universal grip profiles.

DARTBOARDS AND ESSENTIALS

The Bandit owes its cult following to the world's finest bristle dartboard technology. Its unique, staple-free white razor-bladed wires are more than 50% finer than a standard dartboard, so more darts hit their mark rather than bouncing out.

Through 50 years in the darts business, we've noticed that players have a preference for their boards as well as their darts. So we've released our new generation Bandit Boards in two densities: the original Bandit, and the firmer Bandit Duro.

SHOT DOUBLE TOPS DARTBOARD GAME

DARTBOARDS AND ESSENTIALS

The ultimate 'surround sound' dartboard lighting system. The revolutionary Shot Stadium Dartboard Lights were co-designed with players and engineered to last, from four stable, fully adjustable and lightweight powder coated steel arms. Position the lights where you need it, directly on the board (with or without a surround). With no need for permanent fixing, you're ready to play in minutes. 12x powerful 6100k LEDs per arm sit at an optimal 60° angle, providing continuous, shadowless light coverage across the dartboard, while the supplied dimmer can adjust according to ambient lighting and for greater accessibility.

OCHE MATS

Good looking enough to do the games room proud, our dart mat range allows for comfort underfoot, game after game, without curling. And regulation steel- and soft-tip toe lines or throw lines show you where to stand and throw.

The Shot Professional T Dart Mat combines the durability of a regular dart mat, with an extra “T” defence zone below the dartboard on each side. Providing more floor coverage, and twice the mat thickness at the oche where it counts, your floor and darts have double the protection against damage.
