

ROBERTO  
SPORT  
FOOSBALL  
TABLES

Roberto Sport was founded in 1947 in Turin, Italy and has gained a worldwide reputation for manufacturing high quality foosball tables. This is due to, not only for being one of the first manufacturers of table soccer, but also for their contributions in the technical and promotional development of table soccer over the years. In order to adjust to the increasingly demanding and competitive market, Roberto Sport has expanded its offering of soccer tables, both with and without coin mechanisms. To control all production procedures and to ensure competitive quality, this industry leader has put a great deal of effort and investment into manufacturing techniques and equipment.

Long term co-operation with the FICB (Italian Table Soccer Federation) has definitely enhanced the quality of their tables. Recognized by the ITSF (International Table Soccer Federation) since its official formation; tables are continuously tested by the best international players. Roberto Sport tables are the official table for ITSF World Cup events, ITSF World Championships, Master Series and the Pro Tour.

## ROBERTO SPORT COLLEGE

This is a great looking Italian Gitoni style table that is modelled after Roberto's coin-operated commercial tables. Tempered glass playing surface provides the fast ball response needed for competitive play.

Telescopic rods ensure safety during aggressive matches. The cabinet is constructed from multi-layered poplar plywood covered with durable plastic laminate. Extruded aluminum top rails and corners add to the durability and solid metal legs make this Italian made table tough to beat. Perfect for institutional and commercial settings.

Includes 10 foosball balls.

## ROBERTO SPORT EXPORT COVER Coin Operated

The best coin-operated foosball you can buy. Tempered glass cover and play field, 24mm popular plywood cabinet, and square anodized aluminum legs all contribute to the extensive durability of this commercial foosball. Cabinet is finished in a durable black plastic laminate and is built in two parts so it can be opened by a double lock for easy access to the interior. Tempered glass top cover prevents damage to the playfield, theft of balls, helps keep play area clean and to decreases noise while playing.

Complete with 5mm deluxe tempered glass playing field which provides a very fast playing surface. 18mm telescopic rods are double chromium plated steel with toughened springs complete with indestructible polyurethane plastic handles and players. Available with a coin mechanism that can be adapted to either coins or tokens. The table comes with 10 foosball balls.

## ROBERTO SPORT Summer

Roberto Sport has created a soccer table specifically designed to be played outside. The Summer Outdoor gironi/ foosball table is made of water and sun proof material which makes it the perfect table for camp sites, resorts, patios, as well as gardens, playgrounds, pool sides or any outdoor area.

The body is constructed of 24mm thick special sealed marine plywood, covered by 10/10 waterproof plastic laminate. The traditional Green playing field is made out of 5mm tempered glass and is water/sun proof.

The telescopic safety rods are 18mm stainless steel and the bushings are made of special nylon material that allows high speed, minimal maintenance and longer life. Screws and springs are also rust resistant stainless steel. The outdoor table incorporates anodized aluminum legs with soft high grip feet for added stability. Assembled dimensions 135 x 110 x 90 cm, packing dimensions 138 x 80 x 25 cm, weight 52.30 kg.

# COLLEGE PRO COVER

Same design as the College Pro, Roberto's College Pro Cover foosball table is the first "free play" table to have the tempered glass top preventing competitors from touching the players or the ball. Moreover, the ball can't bounce out of the table. Having the play field covered also reduces the sound of the match and keeps the playing surface clean. For these characteristics, it is proven to be the best choice for schools and institutes where safety is an issue.

# Pro-Winner

With Roberto Sport's Pro Winner foosball table you get the best of best features of the "College" and competition tables all rolled into one amazing professional soccer table. The Pro-Winner is produced in Italy and made with the finest materials available. It's cabinet is made from poplar plywood and MDF with a total thickness 1" (24 mm) and is coated with melamine laminate. The unique bushing design utilizes a self lubricating material that enables exceptional game speed. Large metal legs are reinforced with crossbar for maximum stability and come with adjustable feet that are fitted with a suction cup rubber bottom for total grip. The table comes with double plated steel 18mm telescopic rods. Supplied with 10 balls and 1 lubricant spray for rods.

# ROBERTO SPORT ADRENALINE

Play like a pro on a Roberto Sport Adrenaline gitoni style foosball table! Authentic ITSF competition table, the Adrenaline foosball table has been manufactured with carefully chosen materials: 25mm thick multi-layer laminated plywood cabinet, 90cm x 90cm metal legs, chromed steel rods and plastic laminate playing field. Comfortable grip thanks to anti-perspiration handles and rubber shock absorbers make for amazingly responsive play. High resistance players (guaranteed for life) have been moulded directly onto the bars and have roughened feet for better ball control. Large metal legs are reinforced with crossbar for maximum stability and come with adjustable feet that are fitted with a suction cup rubber bottom so the table stays in place during rough games.

Comes standard with solid 18mm drawn steel double plated solid metal rods. 25mm thick walls are made of poplar plywood covered with two MDF sheets to make the impact surface for the ball hard and even and allow for perfect response on the bank shots. Playfield is a sandblasted plastic laminate for professional ball movement.

## ITEM#840631

**Carton Dimensions:** 54.5" x 31.5" x 13" (138cm x 80cm x 33cm)

# ROBERTO SPORT TOP-SPEED

The Roberto Sport Top-Speed is the official International Table Soccer Federation (ITSF) competition table and comes with a numbered plate authenticating ITSF approval. It can be used for any ITSF World Tour Tournament. The cabinet is made of 30mm thick multilayered poplar plywood covered by two MDF sheets that make the panels extremely durable and consistent ensuring precision bank shots. The heavy metal legs are fitted on the outside of the cabinet, which combined with the extra weight of the legs, provides extra stability and reinforcement. Feet are adjustable to allow leveling of the play field on any surface. Playing field is made of sandblasted tempered glass giving extra grip allowing ball control.

The Top-Speed also incorporates an innovative concept for the border sides with lowered corners. Traditional border sides have been changed into a long/thin strips that prevent dead zones granting precision for side shots. Solid rods are 18 mm with rubber springs and round feet players for a perfect ball control.
